

TROUBLESHOOTING

<div>Problem</div> <div>Cause</div>	No ignition	No burning	Unstable flame	Uneven flame	Slow burning	Gas small	Stopped working while in use	Continued burning	Solution
Lack of fuel	●	●			●		●		Replace cartridge
Piezo plug dirty	●								Clean spark point
Dirty burner	●	●	●	●	●				Clean burner
Cartridge misaligned	●	●	●		●	●			Reset correctly
Dirty burner or empty cartridge	●	●		●	●				Clean burner or replace cartridge
Faulty knob mechanism	●					●		●	Request for inspection/repair
Internal gas pressure too high							●		Cool down gas cartridge
Improper setting of spark point	●								Set spark point to 2-3mm away from burner

Due to continual development, specifications are subject to change without notice.

CARE AND CLEANING

- The outside of the cooker can be wiped clean with a mild solution of dish washing detergent and finished off with a dry cloth. Do not use abrasive pads.
- We recommend the burner head be cleaned by gentle scrubbing with a dry brush at least annually. Ensure that the burner ports are free of any obstructions.
- Occasionally clean the point of the Piezo plug with a hard brush or file.

KEEP THIS APPLIANCE AWAY FROM COMBUSTIBLE MATERIALS

Minimum clearances	Total Nominal Gas Consumption

SAFETY TIPS

Do's

- Turn gas off at ignition knob after use.
- Check that burner is fully extinguished before disconnecting the gas cartridge.
- Remove the gas cartridge when not in use.
- Change the gas cartridge outside and away from people.
- Check the seals before connecting a new gas cartridge to the appliance.
- Always remove the cooker from the carry case prior to use.
- Keep children away from this appliance.
- Make sure there is adequate ventilation under the unit.
- Only operate on flat, horizontal surfaces.
- Use the cooker in cool places or in the shade. Keep the cartridge compartment out of direct sunlight.
- Leak test the regulator and canister connection before use with a soapy water solution.
- Always check the gas cartridge position inside the compartment for leaks. If a leak occurs, turn off the supply and remove the gas cartridge.
- Only use when in attendance.

Don'ts

- DO NOT** OPERATE IN AN ENCLOSED AREA.
- DO NOT** operate in a boat, caravan or tent.
- DO NOT** modify this appliance.
- DO NOT** use the cooker in sand or on gravel surfaces.
- DO NOT** move the cooker while it is lit.
- Avoid** using the cooker in very windy conditions.
- DO NOT** use a cooking pan that is larger than 26cm in diameter.
- DO NOT** use appliance as a room heater, clothes drier or to ignite other fuel.
- DO NOT** place articles on or against this appliance.
- DO NOT** place chemicals or flammable materials, or spray aerosols near this appliance.
- DO NOT** leave unattended.
- DO NOT** use in carry case.
- DO NOT** attempt to fit any other gas cannisters than those certified to EN417
- This is **NOT** designed as a permanent cooker, **DO NOT** install.
- NOT** suitable for installation or connection to a reticulated gas supply

For any queries or assistance call

Customer Service
(Australia Only)

1300 174 876

Hours of operation:
Monday to Friday 8.00am - 5.00pm EST
Do not return to place of purchase.

Keep your purchase receipt, this will be required to make any claims under the 12 month warranty.

Important: Retain these instructions for future use.

CAMPING STOVE
WITH HOTPLATE

Model No. CS405

- Twin over-pressure safety devices - enhanced safety devices which sense if pressure becomes too high. Firstly the cartridge is ejected and secondly the gas supply is shut off to the burner.
- Vitreous enamel spill tray/top with flame protection ring.
- Cartridge lock lever and rotary Piezo ignition.
- Convenient storage and carry case.
- Uses Gasmate bayonet cartridge (G4210 - sold separately).
- Gas certified to Australian and New Zealand Standards.

WARNING - USE OUTDOORS ONLY

ONLY USE IN WELL VENTILATED AREAS. CARBON MONOXIDE HAZARD – USING THIS APPLIANCE IN AN ENCLOSED SPACE MAY CAUSE DEATH. DO NOT USE IN CARAVANS, TENTS, MARINE CRAFT, CARS, MOBILE HOMES OR SIMILAR LOCATIONS.

NOT FOR COMMERCIAL USE

- DO NOT USE MULTIPLE APPLIANCES TO HEAT A SINGLE COOKING DEVICE
- DO NOT USE OVERSIZED COOKING DEVICES (Maximum 26cm diameter)
- DO NOT USE AS A SPACE HEATER OR FOR ANY PURPOSE OTHER THAN COOKING
- DURING USE, AVOID BOIL OVER AND SPILLAGE

Important: Retain these instructions for future use.

WARNING!

NEVER USE A POT OR PAN OVER 26CM DIAMETER. USE OUTDOORS ONLY.

IMPORTANT

Read these instructions for use carefully. Familiarise yourself with the appliance before connecting it to it's gas container. Keep these instructions for future reference.

This appliance shall only be used with a Butane gas cartridge certified to EN 417 or equivalent.

IT MAY BE HAZARDOUS TO ATTEMPT TO FIT OTHER TYPES OF GAS CONTAINERS.

*REMOVE ANY TRANSIT PROTECTION MATERIAL.

OPERATING INSTRUCTIONS

Inserting the Gas Cartridge

- Turn the Ignition Knob to 'OFF' and set the Cartridge Lever to 'UNLOAD' (Fig. 1).
Note: If the Ignition Knob is not in the 'OFF' position the gas cartridge cannot be loaded.
- Open the Cartridge Cover: Slide the gas cartridge, top end first and with its notch up, into the compartment. Align cartridge collar notch with the red locator tab on the appliance (Fig. 2).
- Push the Cartridge Lever down to 'LOAD' in one firm motion (Fig. 3).

Lighting the Stove

- Push and turn the knob anti-clockwise past the '⚡' position until a click is heard (Fig. 4).
- If the burner fails to light, immediately turn the Ignition Knob to 'OFF' position and repeat Step 1.

To Adjust Heat

Flame can be controlled by turning the Ignition Knob between the 'HIGH' and 'LOW' position.

To Shut Off

- Turn the Ignition Knob to 'OFF' to shut off fuel supply (Fig. 5).
Wait until the flame is fully extinguished before performing the next step.
- Raise the Cartridge Lever to 'UNLOAD' and remove the gas cartridge from the compartment.
Note: Do not leave the gas cartridge inside the unit when not in use or storing the product.

After Use

- Replace the cap on the gas cartridge after removing it from the unit. Store upright in a cool dry place.
- Make sure the burner is cool to touch before packing unit away.
- DO NOT** store the cartridge near other flammables.
DO NOT store the cartridge near sources of heat or direct sunlight.
DO NOT store in the glove compartment or boot of your car.
DO NOT puncture or incinerate empty cartridges.

Check that the seals between the appliance and the gas container are in place and in good condition before connecting the gas container.

- Leak test the regulator and canister connection before use with a soapy water solution.

- DO NOT** use this appliance if it has damaged or worn seals.

- DO NOT** use this appliance if it is leaking, damaged or does not operate properly.

- The cartridge may be disconnected even if some gas remains.

- Check the contents by shaking and listening for the liquid gas.

Gas containers shall only be changed in a well ventilated location, preferably outside, away from people and way from sources of ignition; such as naked flames, pilot flames, electric heaters/equipment.

If there is a leak on your appliance (smell of gas) and you cannot stop the gas flow, remove the appliance to a well ventilated location away from any ignition source. Only check for leaks outdoors using soapy water.
DO NOT try to detect leaks using a flame.

This appliance must only be serviced by an authorised person.

NOTE: The stove efficiency will be reduced in strong windy conditions.
In this case use outdoors in wind protected areas.

WARNING

THE OPENINGS AT THE BASE OF THE BURNER PROVIDE AIR FOR COMBUSTION, THEY SHOULD NEVER BE OBSTRUCTED. IF THE FLAME BECOMES SIGNIFICANTLY ORANGE CHECK THESE OPENINGS FOR A BLOCKAGE. IF THE APPLIANCE CANNOT BE ADJUSTED TO PERFORM CORRECTLY IT SHOULD NOT BE USED UNTIL SERVICED OR REPAIRED.
